PROFESSIONAL SUMMARY

B.Sc Information Technology student focused on frontend development, with hands-on project experience in HTML, CSS and JavaScript. Built responsive web applications and a real-time multi-user project, with additional knowledge of Python, SQL and machine learning. Seeking an entry-level Frontend Developer role.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript, Responsive Web Design
- **Backend:** Flask, Flask-SocketIO
- **Programming:** Python, SQL
- **Database:** MySQL, SQL Server
- **Data and ML:** Pandas, Scikit-learn
- **Tools:** Git, GitHub, GitHub Pages, Streamlit

PROJECTS

Personal Portfolio Website | HTML, CSS, JavaScript

- Developed a responsive portfolio website showcasing skills, projects, education and certifications.
- Published the website using GitHub Pages.

Collaborative Whiteboard | Flask, Flask-SocketIO, SQL Server, HTML, CSS, JavaScript

- Developed a real-time collaborative whiteboard application with multi-user synchronization.
- Implemented user registration and login backed by SQL Server.

IT Employee Burnout and Attrition Predictor | Python, Pandas, Scikit-learn, Streamlit

- Built a machine learning dashboard to analyze employee burnout and attrition indicators.
- Predicted employee attrition outcomes using a trained model.

Heart Disease Prediction Web App | Python, Pandas, Scikit-learn, Streamlit

- Built and deployed an interactive ML application with data preprocessing and model development to predict heart disease risk.
- GitHub: github.com/gshemba516-sudo/heart-disease-prediction | Live: heart-disease-prediction-2hus9ulmdasmrqw9vdqbxl.streamlit.app

INTERNSHIP

AI/ML Intern | Elysium Pro, Madurai | 1 Month

- Worked on AI/ML concepts, data preprocessing and machine learning workflows.

EDUCATION

B.Sc Information Technology | G. Venkataswamy Naidu College, Kovilpatti | Expected 2027

- Percentage: 81.06% (up to 4th semester)

CERTIFICATIONS

- Python | GUVI x HCL | 2024
- AI and Innovation with MongoDB | MongoDB
- Building AI Agents with MongoDB | MongoDB | 2026
- Building RAG Apps Using MongoDB | MongoDB | 2026
